### SUMMARY

---

Junior Developer aspiring to enter the work of Web Development. Results oriented and efficient individual with much knowledge in software development. I possess excellent knowledge in latest frameworks used in software development, whether in testing or developing software's. I'm a Full stack engineer proficiency in Frontend Frameworks like React and React Native for mobile applications also in Backend framework like Nodejs and also work with Rest APIs using Nodejs rest framework, and manage the state of the application using Redux.

### SKILLS

---

- Javascript
- React
- MySQL
- Node.js
- Chakra UI
- Tailwind Css

### Projects

---

- **Carpentry-Connect**  
This is a react, node, mssql-server project by which carpenters and clients can interact on furniture creation. The client posts the item they want made and different carpenters with portfolios of previous jobs can apply for the job and the clients can choose after viewing the portfolio the best suited for the work and contact them.
- **WorldWise- Link: <https://worldwise-six-xi.vercel.app/>**  
This is a react project which one can use to record their adventures on the world by recording the places they have visited and saving the information into a fake api. It has an integrated map where one can click and input information about the place the place for memories.

### EXPERIENCE

---

#### Software Developer attachment | The Jitu

2<sup>nd</sup> May 2023 – 27<sup>th</sup> July 2023 | Nyeri

- **Frontend Development:** Built responsive web applications using **HTML, CSS, JavaScript, React**, and state management tools like **Redux**.
- **Backend Development:** Developed and managed APIs using **Node.js Express**, handled authentication, and integrated third-party libraries.
- Developed a social media platform called WeChat, implementing key features such as user authentication, real-time messaging, and content sharing.

#### Key Accomplishments:

- Certificate of completion

## Software Developer Intern | Zuridesk

October 2024 - Present | Ridgeways Kiambu Road

- Developing and implementing web applications into Zuridesk systems using SCRUM Agile methods.
- Worked with a team to implement UI for the platform socials.

## EDUCATION

Dedan Kimathi University of Science and Technology | Bachelor of Science in Computer Science

Dec:2024

- Second class Lower

## Volunteer Experience

- **DSAIC Website creation:** I volunteered in creating the current website used by dedan Kimathi university data science and artificial intelligence website
- **GDSC DeKuT:** I volunteered in guiding students in building web applications using HTML, CSS, JavaScript, React, and Node.js, while promoting best coding practices and collaborative learning
