💡 Summary

Passionate **Full-Stack Developer** with expertise in building **scalable, high-performance web applications**. Proficient in **React, Redux, Node.js, and Express** with experience in **RESTful APIs, database management (MySQL, MSSQL), and Agile development**. Strong problem-solving skills, teamwork, and commitment to continuous learning. Looking for opportunities to contribute and grow in a dynamic development team.

🛠 Skills

- **Frontend:** JavaScript, React, Redux, React Query, Chakra UI, Tailwind CSS

- **Backend:** Node.js, Express, RESTful APIs

- **Database:** MySQL, MSSQL

- **Tools & Methodologies:** Git, Agile (Scrum), CI/CD

- **Soft Skills:** Problem-Solving, Collaboration, Time Management

---

💼 Experience

Software Developer Intern | Zuridesk *(Oct 2024 – Present)* | Ridgeways, Kiambu Road

- Developed **social features** that increased **user engagement** and retention

- Enhanced UI/UX by implementing **reusable React components**, reducing development time by **20%**

- Collaborated with a cross-functional team in an **Agile (SCRUM) environment**, ensuring timely feature delivery

☑ **Key Achievement:** Optimized front-end performance, improving page load speed by **30%**

Software Developer Attachment | The Jitu *(May 2023 – July 2023)* | Nyeri

- Built **WeChat**, a full-stack **social media platform** with real-time messaging and user authentication

- Developed a **scalable backend** using **Node.js & Express**, ensuring **high performance**

- Integrated **Redux** for efficient state management, reducing API calls by **40%**

☑ **Key Achievement:** Successfully delivered project **within 1 month**, earning a **recommendation letter**

🚀 Projects

Carpentry-Connect *(Full-Stack Platform)*

A marketplace connecting carpenters with clients for custom furniture requests.

- **Tech Stack:** React, Node.js, MSSQL

- **Features:** Job postings, portfolio management, secure messaging

Wordwise *(Travel Logging App)*

A **React-based** application for users to record & share travel experiences.
🔗 **Live Demo**

- **Tech Stack:** React, Fake API, Interactive Map Integration

- **Features:** User authentication, location tagging

🎓 Education

Bachelor of Science in Computer Science
Dedan Kimathi University of Science and Technology *-(Dec 2024)*

🤝 Volunteer Experience

Backend Developer | DSAIC Web Creation

- Developed backend for **Data Science & AI Club website**, improving **data handling & authentication**

- Optimized **database queries**, improving API response time by **50%**

☑ **Impact:** Increased club membership through better online engagement

Mentor & Workshop Leader | Google Developer Student Club (GDSC DeKUT)

- Conducted **web development workshops** (HTML, CSS, JavaScript, React, Node.js)

- Mentored students, improving **coding best practices & collaboration**

☑ **Impact:** Helped **20+ students** build & deploy real-world projects
